ADDITIONAL STATEMENTS: The City of Washougal makes no warranty and accepts no responsibility for the performance of these suggested trees, as many factors can affect tree development.

This list may be changed without notice. Trees taller than 40' may be installed with permission from the City of Washougal. The City of Washougal may require root barriers to protect streets and sidewalks in planter strips less than 4' wide. Due to development activity and the disturbance of naturalized habitats, optimizing tree canopy coverage, when the site allows, is preferred. Thoroughly research the size and needs of your selected tree against the conditions of your site. Choose trees and shrubs that fit in the space when fully mature. Avoid trees that require excessive pruning to fit the space. Observe where STOP and other street signs are located... do not block. Be mindful of and avoid overhead power and underground water/sewer lines. Call before you dig!
