

WASHOUGAL ONWARD 2025-2045

COMPREHENSIVE PLAN UPDATE

WASHOUGAL
ONWARD

Washougal is a growing community, expected to reach a population of nearly 25,000 by 2045. As our community grows, it's vital that residents come together to shape the future of Washougal in a way that reflects our shared values. The Comprehensive Plan is a long-term strategy that will guide the City's development over the next 20 years. It's an exciting opportunity to help ensure that future growth supports our community's needs and priorities, preserves our beautiful environment, and enhances the quality of life for everyone in Washougal.

WHAT IS A COMPREHENSIVE PLAN?

A Comprehensive Plan is a community-driven, long-term strategy required by the State of Washington under the Growth Management Act. It sets the foundation for how we manage growth and development in Washougal. The plan addresses important aspects of community life, including:

- **Land use and zoning** to manage how spaces in Washougal are used and developed.
- **Housing options, including middle housing** (e.g., duplexes, triplexes, cottage housing, etc.), providing more affordable and diverse housing options.
- **Transportation and infrastructure**, ensuring efficient roadways and public transportation systems.
- **Parks and recreation facilities** to maintain green spaces and community areas.
- **Public utilities and other services** such as stormwater, water, sewer systems and private utilities, as well as police and fire services to support the city's growing population.
- **Climate resilience and sustainability**, focusing on reducing greenhouse gas emissions and preparing for climate challenges.
- **Critical lands and natural resources** to identify, manage and protect natural resources.
